

# Cyber-Risk Oversight in the Boardroom

“Ensuring the adequacy of a company’s **cybersecurity** measures needs to be a part of a **board of director’s** risk oversight **responsibilities.**”

— SEC COMMISSIONER LUIS AGUILAR

## Five Steps All Boards Should Consider

- ONE** Approach cybersecurity as an enterprise-wide risk management issue.
- TWO** Understand the legal implications of cyber risk as they relate to the company.
- THREE** Give cyber-risk management regular time on the board's agenda.
- FOUR** Expect management to establish a cyber-risk management framework.
- FIVE** Identify which risks to avoid, accept, mitigate, or transfer through insurance.
